---

## SUMMARY

A hardworking and motivated recent graduate with strong foundation in programming concepts seeking for the role of **Associate Software Engineer** to polish his skills into various fields of Software Development.

---

## EDUCATION

### FSC Pre-Engineering

Aug 2018 - Sep 2020

Concordia College a project of Beaconhouse

- Grade A

### Bachelor of Computer Science BSCS

Oct 2020 - May 2024

University of Engineering & Technology Lahore

- CGPA 3.3

---

## TECHNICAL SKILLS

- C++
- OOP
- DSA
- SQL
- HTML
- CSS/SCSS
- JAVASCRIPT
- ReactJs
- Redux
- Git
- MongoDB
- Problem Solving
- Strong Communicaton

---

## WORK EXPERIENCE

### Nodlays Johar Town

Jul 2023 - Jan 2024

- Six months of **React.js** experience, with expertise in core libraries (Router, Formik, Redux, Axios) for enhancing web apps and creating reusable components
- Built a one-page application named '**Balloch Park**,' where I designed the UI and integrated APIs. .
- Collaborated on a team to build an admin panel for Balloch Park, implementing CRUD operations for web content customization.

---

## PROJECTS

### Buildify (FYP) (NextJs, Tailwind, MongoDB)

- Buildify is a platform that connects constructors and clients. Clients can post projects, hire contractors, and communicate via chat, while constructors can find jobs and update milestones. Real-time progress is visualized through graphs and also integrated a OpenAI chatbot for client assistant

### CRUD WEB APP

- Created a small **MERN** based project with CRUD operations for employee data, integrated APIs with Redux Thunk, and added protected routing with user authentication.

### Portfolio Site

- Developed a dynamic and responsive portfolio website using **React.js**, showcasing my skills, projects, and professional journey.

---

## CERTIFICATES

- Appreciation Certificate From Nodlays
- Six months internship Certificate from Nodlays
